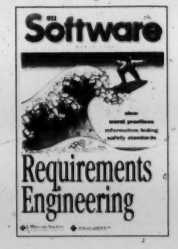
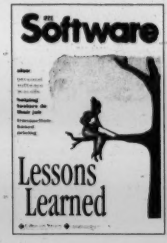
ANNUAL INDEX 1996





SUBJECT INDEX

A

APPLICATIONS *see Case Studies, Development, Tools*

ARCHITECTURE

"Architecture? Design? Debating Classifications," James Kirby Jr., Letters, May, pp. 10-12.

"Architectural Design of the Common Operating Environment," Shawn Butler, David Diskin, Norman Howes, and Kathleen Jordan, Nov., pp. 57-65.

"Scenario-Based Analysis of Software Architecture," Rick Kazman, Gregory Abowd, Len Bass, and Paul Clements, Nov., pp. 47-55.

B

BOOK REVIEWS

"Achieving Little Goals in Language Design and Implementation" (review of *Constructing Language Processors for Little Languages*), Daniel J. Salomon, Bookshelf, Jan., pp. 118-119.

"The American Programmer: No Longer an Endangered Species?" (review of *Rise and Resurrection of the American Programmer*), Ware Myers, Bookshelf, Nov., pp. 117-118.

"Another Yarn from the Great Storyweaver" (review of *Why Does Software Cost So Much?*), Bookshelf, Alan Davis, July, pp. 134-135.

"Applying Communication Principles to Visual Interface Design" (review of *Designing Visual Interfaces*), Henry Etlinger, Bookshelf, Mar., pp. 117-118.

"Software and Sophomore Philosophy" (review of *Dynamics of Software Development*), Gregory V. Wilson, Bookshelf, Nov., pp. 122-123.

"C++ STL: Breadth, Depth, and Quality" (review of *STL Tutorial and Reference Guide*), Gregory V. Wilson, Bookshelf, Nov., p. 122.

"Too Much Enthusiasm for C++, Too Little Information for Readers" (review of *A Jump Start Course in C++ Programming*), Ralph Cook, Bookshelf, Nov., p. 121.

"Computers and Privacy: Crypto Policy Questions" (review of *Building in Big Brother—The Cryptographic Policy Debate*), Joseph Kusmiss, Bookshelf, Mar., p. 122.

"Contemporary Guide to Parallel Programming" (review of *Programming Languages for Parallel Programming*), Gregory V. Wilson, Bookshelf, July, p. 134.

"Deep 'C' Fishing" (review of Expert C Programming-Deep C Secrets), Richard Bach, Bookshelf, July, pp. 133-134.

"Exploring Cryptic Text Algorithms" (review of *Text Algorithms*), Jacques L. Schlesinger, Bookshelf, July, pp. 136-137.

"Fresh and Refreshing Views of Computing" (review of *Computing Perspectives*), Richard Bach, Bookshelf, Sept., p. 99.

"Functionally Effective Function Testing Primer" (review of *Black Box Testing: Techniques for Functional Testing of Software and Systems*), Tom Adams, Bookshelf, Sept., pp. 98-99.

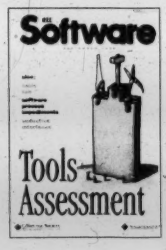
"A General Work on Network Security" (review of *Network Security: Private Communication in a Public World*), Bookshelf, John Horch, Sept., pp. 100-102.

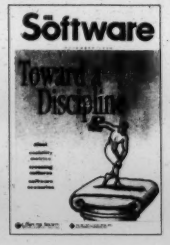
"Glitchy Guide to Debugging Your Writing" (review of *BUGS in Writing: A Guide to Debugging Your Prose*), Robert M. Wilson and Gregory V. Wilson, Bookshelf, Sept., pp. 99-100.

"High-Level Text on Higher Order Logic," (review of *Introduction to HOL*), Kasilingam Periyasamy, Jan., pp. 117-118.

"A How-To Book on Herding Cats in Unix"

0740-7459/96/$05.00 © 1996 IEEE





(review of *Unix Systems for Modern Architectures: Symmetric Multiprocessing and Caching for Kernel Programmers*), Spencer Dawkins, Bookshelf, Nov., pp. 118-119.

"Informal Survey of Software Fault Tolerance in Distributed Systems" (review of *Fault Tolerance in Distributed Systems*), Joseph Kusmiss, Bookshelf, Jan., pp. 117.

"Is There Life after ISO 9000?" (review of *Secrets of Software Quality: 40 Innovations from IBM*), Spencer Dawkins, Bookshelf, Nov., p. 120.

"Jackson's Latest: More than a Lexicon" (review of *Software Requirements & Specifications: A Lexicon of Practices, Principles, and Prejudices*), Sol J. Greenspan, Bookshelf, Mar., pp. 116-117.

"New Ada Constructs For Concurrent Programming" (review of *Concurrency in Ada*), Janusz Zalewski, Bookshelf, July, pp. 135-136.

"No Pearls of Wisdom in this Perl Text" (review of *Software Engineering with Perl*), Gregory V. Wilson, Bookshelf, Nov., p. 123.

"Objectifying Real-Time Systems: A Down-to-Earth Guide" (review of *Objectifying Real-Time Systems*), Robin Messer, Bookshelf, Mar., p. 123.

"An Overview of High-Performance Computing for the Uninitiated" (review of *High-Performance Computing Demystified*), Gregory V. Wilson, Bookshelf, Mar., p. 118.

"Personal Approach to Improving Software Development" (review of *A Discipline for Software Engineering*), Tom DeMarco, Bookshelf, Nov., pp. 116-117.

"Software Success: Microsoft's Method" (review of *Microsoft Secrets*), Ron Nusenoff, Bookshelf, May, pp. 107-109.

"Thorough Look at Software Inspection" (review of *Software Inspection Process*), John Horch, Bookshelf, Jan., pp. 116.

"Tools and Design Methods for Parallel Programming" (review of *Designing and Building Parallel Programs*), Gregory V. Wilson, Bookshelf, Nov., pp. 119-120.

"A Whale of a Book on Analysis and How to Make it Work" (review of *Analyzing Systems: Determining Requirements for Object Oriented Development*), John Horch, Bookshelf, Mar., p. 119.

BUSINESS ISSUES *also see Globalization, Legal Issues, Management, Reuse*

"Another Yarn From the Great Storyweaver" (review of *Why Does Software Cost So Much?*), Alan Davis, Bookshelf, July, pp. 134-135.

"The American Programmer: No Longer an Endangered Species?" (review of *Rise and Resurrection of the American Programmer*), Ware Myers, Bookshelf, Nov., pp. 117-118.

"Software and Sophomore Philosophy" (review of *Dynamics of Software Development*), Gregory V. Wilson, Bookshelf, Nov., pp. 122-123.

"Avoiding Classic Mistakes," Steve McConnell, Best Practices, Sept., pp. 111-112.

"Signs of Life—and Growth—at Comdex," Sorel Reisman, In the News, Jan., p. 110.

C

CAPABILITY MATURITY MODEL *see Process Models, Process Improvement*

"Raytheon's Experience in Software Process Improvement," Thomas J. Haley, Nov., pp. 33-41.

"Using Formal Methods to Develop an ATC Information System," Anthony Hall, Mar., pp. 66-76.

"Cash Cow in the Tar Pit: Reengineering a Legacy System," W. Stephen Adolph, May, pp. 41-47.

CERTIFICATION *see Legal Issues, Professional Issues*

CLIENT-SERVER *also see Distributed Development/Systems, Legacy Systems, Reengineering*

"Tools Fair: Untangling the Web with Web and Client/Server Development Tools," Alan Chmura and David Sharon, Sept., pp. 61-72.

CONCURRENT DEVELOPMENT *see Development, Programming*

CONFERENCES

"ICSE 18: Industry and Research Come Together—More or Less," Christer Mattsson, In the News, Sept., pp. 105-108.

"MacWorld: Lots of Light, Sound, and Audio—Little Strategy," Sorel Reisman, In the News, Mar., pp. 113-114.

"Now That Objects Are Old Hat, Quo Vadi, Oopsla?" Mike Lutz, In the News, Jan., pp. 106-109.

"Old-Timers and Upstarts Chime in with New Telephony Products," Sorel Reisman, In the News, May, pp. 103-104.

"Professional Awareness in Software Engineering," Alison Rowe, News, May, p. 102.

"SEW Panelists Ask, Is Process Enough?" Maureen McSherry, In the News, Mar., pp. 115-121.

"Signs of Life—and Growth—at Comdex," Sorel Reisman, In the News, Jan., p. 110.

"Too Small, Too Hot—And *Still* Too Cool," Sorel Reisman, In the News, July, pp. 141-142.

COPYRIGHT *see Legal Issues*

COST-BENEFIT ANALYSIS *see Business Issues, Management*

D

DATABASES

"Adding a Relational Interface to a Nonrelational Database," Joseph Fong, Sept., pp. 89-97.

"Visualizing the Structure of Large Databases," Stephen G. Eick, Jacqueline Antis, and John D. Pyrce, Jan., pp. 72-79.

DEBUGGING *see Testing*

DECOMPILATION *see Reengineering*

DESIGN *also see Object Orientation, Prototyping, Requirements, User Interfaces*

"Applying Communication Principles to Visual Interface Design" (review of *Designing Visual Interfaces*), Henry Etlinger, Bookshelf, Mar., pp. 117-118.

"Defining Design Terminology," Lawrence S. Dribin, Letters, May, pp. 8.

"Information Hiding MIA? Not Completely," Dan Hoffman, Letters, July, p. 14.

"Missing in Action: Information Hiding," Steve McConnell, Best Practices, Mar., pp. 127-128.

"Scenario-Based Analysis of Software Architecture," Rick Kazman, Gregory Abowd, Len Bass, and Paul Clements, Nov., pp. 47-55.

"Software Success: Microsoft's Method" (review of *Microsoft Secrets*), Ron Nusenoff, Bookshelf, May, pp. 107-109.

DEVELOPMENT ENVIRONMENTS *see Environments, Tools*

DEVELOPMENT *also see Business Issues, Case Studies, Design, Globalization, Management, Object Orientation, Process Models, Programming, Prototyping, Rapid Application Development*

"Anatomy of a Runaway: What Grounded the AAS," Stephen Barlas, In the News, Jan., pp. 104-106.

"Software and Sophomore Philosophy" (review of *Dynamics of Software Development*), Gregory V. Wilson, Bookshelf, Nov., pp. 122-123.

"Cornering the Chimera," R. Geoff Dromey, Jan., pp. 33-43.

"A Defined Process for Postmortem Review," Bonnie Collier, Tom DeMarco, and Peter Fearey, July, pp. 65-72.

"FAA Shifts Focus to Scaled-Back DSR," Stephen Barlas, In the News, Mar., pp. 110-114.

"In the Trenches with the 'Bright Young Things,'" Cindy Corn, Letters, Sept., p. 10.

"Loral and DSR: Congress Was (and Is) Watching," Robert J. Stevens, Letters, May, p. 20.

"Making Software Development Visible" (guest editor's introduction), Pei Hsia, May, pp. 23-26.

"Managing Megaprojects: A Focused Approach," Walt Gillette, Point, July, pp. 28, 30.

"Managing Megaprojects: A Free-Form Approach," Kouichi Kishida, Counterpoint, July, pp. 29-30.

"Managing Multiple Requirements Perspectives with Metamodels," Hans W. Nissen, Harald Hüber, Matthias Jarke, Manfred A. Jeusfeld, and Georg V. Zemanek, Mar., pp. 37-48.

"Our Worst Current Development Practices," Capers Jones, Manager, Mar., pp. 102-104.

"Selecting Software Subcontractors," Jim Nielsen and Ann Miller, July, pp. 104-109.

"Toward a Discipline of Software Engineering," Anthony Wasserman, Nov., pp. 23-31.

DISTRIBUTED DEVELOPMENT/SYSTEMS *also see Communication, Databases, Development, Outsourcing*

"Fundamentals of Distributed System Observation," Colin Fidge, Nov., pp. 77-83.

"Informal Survey of Software Fault Tolerance in Distributed Systems" (review of *Fault Tolerance in Distributed Systems*), Joseph Kusmiss, Bookshelf, Jan., pp. 117.

"Multithreading Programs: Guidelines for DCE Applications," Balakrishnan Dasarathy and David E. Ruddock, Jan., pp. 80-90.

DOCUMENTATION

"Creating the Paperless Office," Rick Shetterly and Alan Chmura, Toolbox, Mar., pp. 124-126.

"Glitchy Guide to Debugging Your Writing" (review of *BUGS in Writing: A Guide to Debugging Your Prose*), Robert M. Wilson and Gregory V. Wilson, Bookshelf, Sept., pp. 99-100.

E

ECONOMICS *see Business Issues*

EDUCATION *see Management, Research*

ENCRYPTION *also see Legal Issues*

"Computers and Privacy: Crypto Policy Questions" (review of *Building in Big Brother—The Cryptographic Policy Debate*), Joseph Kusmiss, Bookshelf, Mar., p. 122.

"A General Work on Network Security" (review of *Network Security: Private Communication in a Public World*), Bookshelf, John Horch, Sept., pp. 100-102.

"Key Decision Likely on Encryption Exports," Stephen Barlas, In the News, Nov., pp. 102-103,108.

ENVIRONMENTS *also see Tools*

"Multithreading Programs: Guidelines for DCE Applications," Balakrishnan Dasarathy and David E. Ruddock, Jan., pp. 80-90.

ESTIMATION METHODS *see Business Issues, Management*

EXPERIMENTAL METHODS *also see Research*

"A Framework for Evaluating Software Technology," Alan Brown and Kurt Wallnau, Sept., pp. 39-49.

F

FORMAL METHODS *also see Quality, Safety-Critical Systems*

"Applying Formal Specification in Industry," Peter Larsen, Tom Brookes, and John Fitzgerald, May, pp. 48-56.

"Do You Really Need Formal Requirements?" Brian Lawrence, Point, Mar., pp. 20, 22.

"Requirements Need Form, Maybe Formality," Daniel Jackson, Counterpoint, Mar., pp. 21-22.

"Using Formal Methods to Develop an ATC Information System," Anthony Hall, Mar., pp. 66-76.

FRAMEWORKS *also see Object Orientation, Reuse*

"Creating Applications from Components: The Design of a Manufacturing Framework," Hans Albrecht Schmid, Nov., pp. 67-75.

"A Framework for Evaluating Software Technology," Alan Brown and Kurt Wallnau, Sept., pp. 39-49.

G

GLOBALIZATION *also see Distributed Development/Systems, Outsourcing*

"The American Programmer: No Longer an Endangered Species?" (review of *Rise and Resurrection of the American Programmer*), Ware Myers, Bookshelf, Nov., pp. 117-118.

"Beyond Language Translation: Crossing the Cultural Divide," Kumiyo Nakakoji, Nov., pp. 42-46.

"DoD Standards Go Global, Commercial," John Charles, News, May, pp. 98-99.

"Going Global with User Testing," Jakob Nielsen, Interface, July, pp. 129-130.

"Selecting Software Subcontractors," Jim Nielsen and Ann Miller, July, pp. 104-109.

GRAPHICS *see User Interfaces, Visual Languages*

H

HUMAN-COMPUTER INTERFACE *see User Interfaces*

HUMAN FACTORS *see People Issues, User Interfaces*

I

INSPECTIONS *see Quality*

INTEGRATED PROJECT-SUPPORT ENVIRONMENT *see Environments, Tools*

INTERFACES *see User Interfaces*

INTERNATIONALIZATION *see Globalization*

INTERNET

"Tools Fair: Untangling the Web with Web and Client/Server Development Tools," Alan Chmura and David Sharon, Sept., pp. 61-72.

INTEROPERABILITY *see Integration*

ISO 9000 *see Standards, Process Improvement, Process Models*

L

LANGUAGES *see Programming*

LEGACY SYSTEMS *also see Reengineering*

"Adding a Relational Interface to a Nonrelational Database," Joseph Fong, Sept., pp. 89-97.

"Cash Cow in the Tar Pit: Reengineering a Legacy System," W. Stephen Adolph, May, pp. 41-47.

"Meeting the Challenge of Software Maintenance," David Sharon, Toolbox, Jan., pp. 122-125.

"Recovering Design and Specifications from Source Code," Noah Prywes, Toolbox, Nov., pp. 109-112.

"Visualizing the Structure of Large Databases," Stephen G. Eick, Jacqueline Antis, and John D. Pyrce, Jan., pp. 72-79.

LEGAL ISSUES *also see Professional Issues*

"Are Developers Morally Challenged?" Karl J. Dakin, Soft Law, July, pp. 20.

"Implied Warranty of Competence," Karl Dakin, Soft Law, Nov., pp. 97-98.

"Key Decision Likely on Encryption Exports," Stephen Barlas, In the News, Nov., pp. 102-103,108.

"Keys to Engineering a Workable Contract," Karl J. Dakin, Soft Law, Jan., pp. 99-100.

"Legal Implications of Blown Schedules," Karl J. Dakin, Soft Law, Sept., pp. 101-102.

"The Transaction-Based Pricing Trend," Karl J. Dakin, Soft Law, May, pp. 96-97.

"Warranties: Promising the Improbable," Karl J. Dakin, Soft Law, Mar., pp. 105-106.

M

MAINTENANCE *see Development, Legacy Systems*

MANAGEMENT *also see Business Issues, Development, Globalization, People Issues, Process Improvement, Quality*

"Beyond Blaming: Congruence in Large Software Develop-

ment Projects," Jean McLendon and Jerry Weinberg, July, pp. 33-42.
"Decision Making: The Key to Successful Project Management" (interview with Ron LaFleur), Ware Myers, July, pp. 139-140.
"Enrollment Management: Managing the Alpha AXP Program," Peter Conklin, July, pp. 53-64.
"Implementing Accountability," Kathy Parris, July, pp. 83-93.
"Industrial Strength Management Strategies," Norm Brown, July, pp. 94-103.
"Level 6: Why We Can't Get There from Here," Tom Gilb, Manager, Jan., pp. 97-98.
"Managing Domain-Specific, Product-Line Development," Randall Macala, David C. Gross, and Lynn D. Stuckey Jr., May, pp. 57-67.
"Managing Large Software Projects" (guest editor's introduction), Tom DeMarco and Ann Miller, July, pp. 24-27.
"Managing Megaprojects: A Focused Approach," Walt Gillette, Point, July, pp. 28, 30.
"Managing Megaprojects: A Free-Form Approach," Kouichi Kishida, Counterpoint, July, pp. 29-30.
"Project Management Is Risk Management," Robert Charette, July, pp. 110-117.
"Project Management: Filling in the Gaps," Dwayne Phillips, Manager, July, pp. 17-18.
"Software Process Impediment," Roger Pressman, Manager, Sept., pp. 16-17.
"Software Process Perceptions," Roger Pressman, Manager, Nov., pp. 16, 18.
"Why Bad Things Happen to Good Projects," Karen Mackey, May, pp. 27-32.

MEASUREMENT *see Experimental Methods, Metrics, Process Improvement, Process Models*

METRICS *see Experimental Methods, Process Improvement, Process Models*

MIDDLEWARE *see Development, Frameworks, Object Orientation*

MIGRATION *see Legacy Systems, Reverse Engineering*

MODELING *see Design, Management*

N

NETWORKS *see Distributed Systems, Encryption, Internet, Standards*

O

OBJECT ORIENTATION *also see Design, Development, Reuse*
"Now That Objects Are Old Hat, Quo Vadi, Oopsla?" Lutz Mike, In the News, Jan., pp. 106-109.
"Object-Oriented Development of Large Applications," Blayne Maring, May, pp. 33-40.
"An Object-Oriented Tool for Tracing Requirements," Francisco Pinheiro and Joseph A. Goguen, Mar., pp. 52-64.

OPERATING SYSTEMS
"MacWorld: Lots of Light, Sound, and Audio—Little Strategy," Sorel Reisman, In the News, Mar., pp. 113-114.
"Plan 9: From Outer Space to Kernel Space," Paul Korzeniowski, News, May, p. 105.

OUTSOURCING *also see Business Issues, Management*
"Selecting Software Subcontractors," Jim Nielsen and Ann Miller, July, pp. 104-109.

P

PARALLEL PROCESSING *see Distributed Development/Systems, Programming*

PEOPLE ISSUES *also see Business Issues, Management*
"Beyond Blaming: Congruence in Large Software Development Projects," Jean McLendon and Jerry Weinberg, July, pp. 33-42.
"How to Defend an Unpopular Schedule," Steve McConnell, Best Practices, May, pp. 119-120.
"In Appreciation of Harlan Mills: Bringing Programming Under Intellectual Control," Bob Britcher, In the News, Mar., p. 110.
"Leading From a Powerless Position" (interview with Norm Kerth), Ware Myers, Sept., pp. 106-108.

PIRACY *see Legal Issues*

PROCESS ASSESSMENT *see Process Improvement, Process Models*

PROCESS IMPROVEMENT *also see Management, Quality*
"Can We Learn Lessons Better?" Annie Kuntzmann-Combelles, Insider, May, p. 21.
"A Defined Process for Postmortem Review," Bonnie Collier, Tom DeMarco, and Peter Fearey July, pp. 65-72.
"Experience Using Cleanroom Software Engineering," S. Wayne Sherer, Paul Arnold, and Ara Kouchakdjian, May, pp. 69-76.
"Level 6: Why We Can't Get There from Here," Tom Gilb, Manager, Jan., pp. 97-98.
"Raytheon's Experience in Software Process Improvement," Thomas J. Haley, Nov., pp. 33-41.
"Realities and Rewards of Software Process Improvement," Quality Time, Donna L. Johnson and Judith G. Brodman, Nov., pp. 99-101.
"SEW Panelists Ask, Is Process Enough?" Maureen McSherry, In the News, Mar., pp. 115-121.
"Slippery Path to Productivity Improvement," Tarek Abdel-Hamid, July, pp. 43-52.
"Software Process Impediment," Roger Pressman, Manager,

Sept., pp. 16-17.
"Software Process Perceptions," Roger S. Pressman, Manager, Nov., pp. 16, 18.
"Spice Trials Produce Positive Results," Khaled El Emam and Dennis R. Goldenson, In the News, Nov., pp. 105-106.
"Using a Defined and Measured Personal Software Process," Watts Humphrey, May, pp. 77-88.

PROCESS MANAGEMENT *see Development, Management, Tools*

PROCESS MODELS *also see Metrics, Process Improvement*
"EMERALD: Software Metrics and Models on the Desktop," John Hudepohl, Edward B. Allen, Stephen Aud, Taghi Khoshgoftaar, and Jean Mayrand, Sept., pp. 56-60.
"Managing Multiple Requirements Perspectives with Metamodels," Hans W. Nissen, Harald Huber, Matthias Jarke, Manfred A. Jeusfeld, and Georg V. Zemanek, Mar., pp. 37-48.
"Personal Approach to Improving Software Development" (review of *A Discipline for Software Engineering*), Tom DeMarco, Bookshelf, Nov., pp. 116-117.
"Usability Metrics: Tracking Interface Improvements," Jakob Nielsen, Interface, Nov., pp. 12-13.

PRODUCTIVITY *see Business Issues, Development*

PROFESSIONAL ISSUES
"Art or Engineering, One More Time," Alan Davis, From the Editor, Nov., pp. 4-5.
"'Back to Basics' or Back to the Dark Ages?" Jon Valett, Letters, May, pp. 14-16.
"Beware the Lure of Software Slogans," John Palmer, Soapbox, May, pp. 18-20.
"CPM Offers Certificate in Software Estimating," John Charles, In the News, Nov., pp. 104-105.
"A Dose of Realism in Developer Education," Jim Holten, Letters, Sept., p. 44.
"Eras and the 'Positive Effect,'" Mike Morton, Letters, July, p. 12.
"Eras of Software Technology Transfer," Alan Davis, From the Editor, Mar., pp. 4-7.
"European Perspective on Self-Help," Ian Sommerville, Letters, Sept., pp. 6-8.
"Improving Public Understanding of Software Engineering," Anthony Finkelstein, Soapbox, Nov., pp. 20-21.
"In the Trenches with the 'Bright Young Things,'" Cindy Corn, Letters, Sept., p. 10.
"It Feels Like Deja Vu All Over Again," Alan Davis, From the Editor, July 96.
"Loral and DSR: Congress Was (and Is) Watching," Robert J. Stevens, Letters, May, p. 20.
"Medical Model Less Than Ideal," Ralph E. Johnson, Letters, July, p. 14.
"Moore's Law: Change or Die," Ted Biggerstaff, From the Editor, Jan., pp. 4-6.
"More Self-Help for Practitioners," Linda Rosenberg, Letters, Sept., p. 6.
"Obvious, But Not Yet the Norm," Vince Kellen, Letters, July, p. 14.
"Practitioner, Heal Thyself," Alan Davis, From the Editor, May, pp. 4-5.
"Professional Awareness in Software Engineering," Alison Rowe, News, May, p. 102.
"What's Practical," Alan Davis, From the Editor, Sept., pp. 4-5.

PROGRAMMING *also see Development, Reuse*
"Achieving Little Goals in Language Design and Implementation" (review of *Constructing Language Processors for Little Languages*), Daniel J. Salomon, Bookshelf, Jan., pp. 118-119.
"C++ STL: Breadth, Depth, and Quality" (review of *STL Tutorial and Reference Guide*), Gregory V. Wilson, Bookshelf, Nov., p. 122.
"Too Much Enthusiasm for C++, Too Little Information for Readers" (review of *A Jump Start Course in C++ Programming*), Ralph Cook, Bookshelf, Nov., p. 121.
"Contemporary Guide to Parallel Programming" (review of *Programming Languages for Parallel Programming*), Gregory V. Wilson, Bookshelf, July, p. 134.
"Daily Build and Smoke Test," Steve McConnell, Best Practices, July, pp. 143-144.
"Deep 'C' Fishing" (review of *Expert C Programming—Deep C Secrets*), Richard Bach, Bookshelf, July, pp. 133-134.
"Exploring Cryptic Text Algorithms" (review of *Text Algorithms*), Jacques L. Schlesinger, Bookshelf, July, pp. 136-137.
"Fresh and Refreshing Views of Computing" (review of *Computing Perspectives*), Richard Bach, Bookshelf, Sept., p. 99.
"High-Level Text on Higher Order logic," (review of *Introduction to HOL*), Kasilingam Periyasamy, Jan., pp. 117-118.
"A How-To Book on Herding Cats In Unix" (review of *Unix Systems for Modern Architectures: Symmetric Multiprocessing and Caching for Kernel Programmers*), Spencer Dawkins, Bookshelf, Nov., pp. 118-119.
"Keep It Simple," Steve McConnell, Best Practices, Nov., pp. 128, 127.
"Missing in Action: Information Hiding," Steve McConnell, Best Practices, Mar., pp. 127-128.
"New Ada Constructs For Concurrent Programming" (review of *Concurrency in Ada*), Janusz Zalewski, Bookshelf, July, pp. 135-136.
"No Pearls of Wisdom in this Perl Text" (review of *Software Engineering with Perl*), Gregory V. Wilson, Bookshelf, Nov., p. 123.
"An Overview of High-Performance Computing for the Uninitiated" (review of *High-Performance Computing Demystified*), Gregory V. Wilson, Bookshelf, Mar., p. 118.
"Tools and Design Methods for Parallel Programming" (re-

view of *Designing and Building Parallel Programs*), Gregory V. Wilson, Bookshelf, Nov., pp. 119-120.
"Who Cares About Software Construction?" Steve McConnell, Best Practices, Jan., pp. 127-128.

PROJECT MANAGEMENT *see Management*

PROTOTYPING *also see Development, Rapid Application Development*

Q

QUALITY *also see Inspection, Management, Process Improvement, Testing*
"Anchoring the Software Process," Barry Boehm and Hoh In, July, pp. 73-82.
"Avoiding Classic Mistakes," Steve McConnell, Best Practices, Sept., pp. 111-112.
"Do Standards Improve Quality?" Norman Fenton, Counterpoint, Jan., pp. 23-24.
